## Concert Etiquette

May we call your attention to a few simple concert guidelines, which would make for greater enjoyment of all our concerts by all who attend them:

1. Good concert etiquette calls for complete silence for the duration of a number. Please refrain from talking.
2. No one should enter or leave the auditorium during a selection. Late-comers will be admitted at the main door and will be asked to remain there until the number is concluded.
3. Children who are of elementary school age or younger are encouraged to sit with an adult guardian. Please keep children in hand.

We are certain that all members of our audience will be happy to comply in the interest of more enjoyable concerts.

**Posting of recordings of school concerts or programs is prohibited by copyright law and student privacy guidelines. Recordings may be made for private use only.**
